### **Grants for Violence-Related Injury Prevention Research: Youth Violence, Suicidal Behavior, Child Maltreatment, Intimate Partner Violence, and Sexual Violence**

The National Center for Injury Prevention and Control is soliciting investigator-initiated research that will help expand and advance the understanding of violence, its causes, and prevention strategies. Applications must address one of the research objectives listed in this RFA, including: 1.) dissemination research designed to build knowledge on methods, structures, and processes to implement existing evidence-based interventions, programs and policies to prevent either perpetration of or victimization from youth violence, intimate partner violence, sexual violence, child maltreatment, and/or suicidal behavior; 2.) intervention evaluation research designed to a.) evaluate the efficacy, effectiveness, and cost effectiveness of primary prevention interventions, programs, and policies to prevent perpetration of youth violence, intimate partner violence, sexual violence, child maltreatment and/or suicidal behavior, or b.) evaluate the efficacy, effectiveness, cost effectiveness, and safety of screening and intervention in primary care settings to prevent intimate partner violence and/or sexual violence.

Approximately \$1,960,000 is expected to be available for six to eight awards. The funding level will not exceed \$300,000 (including both direct and indirect costs) per year. The project period is up to three years.

To be eligible, the principal investigator must have conducted violence prevention research and published the findings in a peer-reviewed journal. A letter of intent is due January 3, 2006 and applications February 1, 2006

Technical assistance will be available for potential applicants during one conference call. The call for eligible applicants will be held on November 14, 2005 from 1:30 p.m. to 3 p.m. (Eastern Time). The conference call can be accessed by calling 1-888-552-9483 and entering access code 34465.
